About Me

My name is Dante and I am a Full Stack Web Developer. I have been freelancing from 2019, to date. I am currently seeking a challenge in a company with a vision to increase their commercial success. In attempts to grow my skills, and continuously learn, while growing with the company.

Projects

Personal library,

Tech-Stack: HTML5, CSS3, JavaScript, Node.js and MongoDB

Personal library is a web app that allows users to make post requests of books, and add and remove comments corresponding with the "id" (which is automatically generated when posting a book), which are then all rendered at real time to the front end. [\[Source Code\]](#) [\[Live Demo\]](#)

Dante's Science Blog ,

Tech-Stack: HTML5, CSS3, SASS, JavaScript, Node.js and MongoDB

Dante's Science Blog Tracker is fully responsive blog website integrated with user subscription and message posts to database. [\[Source Code\]](#) [\[Live Demo\]](#)

Project (Mini) Collections,

Tech-Stack: HTML5, CSS3, JavaScript,

Secondary Portfolio is a collection of other web applications [\[Live Demo\]](#)

Education

2019-2020 **FreeCodeCamp, Full Stack Computer Engineering,**

Responsive Web Design

Javascript Data Structures and Algorithms

Front End Libraries

API and Microservices

Information Security and Quality Assurance

2020-2021 **Saylor Academy, Computer Science Nano Degree,**

C++ programming

Software Engineering

Computer Networking

2016-2020 **Bachelor of Science, Animal Science,**

Golden Key International Honor Society

Major in Nutrition

Thesis: In vitro ruminal dry matter degradability of green tea leaves (Camellia sinensis) treated with exogenous fibrolytic enzymes or polyethylene glycol
